A MESSAGE FROM THE DEPARTMENT OF HEALTH CARE FINANCE

Beginning October 1, 2025, the Health Care Alliance (Alliance) and the Immigrant Children's Program (ICP) becomes one program - the **Health Care Alliance Program**. There are other significant changes to the Health Care Alliance program. These changes impact who is eligible, how services are received, and what services or benefits are provided. The changes are aligned with the Fiscal Year 2026 Budget Support Act of 2025 (Bill 26-260).

DHCF is working to ensure that affected residents and other partners are aware of the changes and know what to do and when. This resource document is designed to provide a one-stop source of information on the upcoming changes that partners and advocates can use to accurately and consistently communicate.

You may help by familiarizing yourself with the online portal, districtdirect.dc.gov, to help individuals create an account and update their information; direct people to the call centers, where interpreters and in-language staff are on hand, and provide a listing of Service Centers for individuals who prefer in-person assistance. Our team will update materials and messages in this resource document.

This resource includes the following:

- Key messages
- Social media

DROP IN ARTICLE

If you have health insurance coverage through Alliance, important changes are happening in October 2025. The Health Care Alliance (Alliance) and Immigrant Children’s Program (ICP) become one program: the Health Care Alliance program. You will no longer have a managed care plan for your coverage. Instead, DHCF will act as your managed care plan. This means when you have questions or concerns about your health coverage, you can call (202) 727-5355 or TTY 711.

There are also changes to what health care services you can access. Adults and children will have access to primary care visits, the emergency department, and prescription drugs. 3. Who is eligible to receive health care benefits through Health Care Alliance?

Starting October 1, 2025, the Health Care Alliance program will no longer enroll new applicants (those not currently enrolled in the program or in a renewal period) aged 26 or older into the program. A new applicant is an individual who is not currently receiving Health Care Alliance but would like to apply for the program. Children (aged 0-20), Adults 21 to 25 years old, and pregnant women can still apply and be evaluated for benefits through the Health Care Alliance program or other health coverage.

To receive health care services through the Health Care Alliance Program:

- You must be a resident of the District of Columbia.
- You must not be eligible for any other health insurance including Medicaid.
- Your income must not exceed the income limit based on your household size.

4. Will I receive a notice or letter about these changes if I am an existing Alliance or Immigrant Children’s Program recipient?

Yes. An informational notice/letter was sent the last week of July from the Department of Health Care Finance (DHCF). If you have a District Direct account, you can view your notice there.

5. What are my health care options if I lose Health Care Alliance as of 9/30/2025?

7. If I am currently receiving Health Care Alliance for Children (formerly Immigrant Children’s Program/ICP) will I lose coverage once I turn 21?

No. However, Alliance for Adults has a lower income threshold than Alliance for Children. Additional eligibility changes may impact coverage beginning 10/1/26.

There are more coverage options for residents who are pregnant. If you are pregnant, you may be able to get coverage if your income is below 324% of the Federal Poverty Level, regardless of immigration status.

You can apply for coverage or report a change of circumstance (like pregnancy, change in income, change in household) to us online at districtdirect.dc.gov. You can also report a change by calling the Public Benefits Call Center at (202) 727-5355 or TTY 711.
